-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 6-8 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Houser et al. (US 5855552). Houser et al. disclose an electrosurgical electrode assembly for use in an electrosurgical handpiece comprising an elongated tubular first member (10) having a first end and a distal flexible extendable second end and a longitudinal axis, first and second electrically-conductive wires (12) positioned in electrically-insulating relationship in the first member with first means connected to the first member at its first end for applying to the first and second wires a bipolar electrosurgical voltage capable of transmitting electrosurgical currents along the wires, first and second spaced exposed electrodes mounted side-by-side on the tubular side of the first member at its second end and being connected respectively to the first and second wires wherein electrosurgical currents are generated sideways between the first and second electrodes when the electrosurgical voltage is applied to the first and second wires.

Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Eggers et al. (US 6312408). In figures 9 and 10 Eggers et al. disclose an electrode assembly for use in an electrosurgical handpiece comprising an elongated tubular first member having a

first end and a distal flexible extendable second end and a longitudinal axis, first and second electrically-conductive wires positioned in electrically-insulating relationship in the first member with first means connected to the first member at its first end for applying to the first and second wires a bipolar electrosurgical voltage capable of transmitting electrosurgical currents along the wires, first and second spaced exposed electrodes mounted side-by-side on the tubular side of the first member at its second end and being connected respectively to the first and second wires wherein electrosurgical currents are generated sideways between the first and second electrodes when the electrosurgical voltage is applied to the first and second wires, wherein the first and second electrodes are nail heads protruding from the tubular side of the first member.

Allowable Subject Matter

Claims 9-13 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 1-13 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
